

ANTI-VIRUS & FIREWALL 9.0

SURF THE WEB WITH CONFIDENCE

LOOKING FOR MORE PROTECTION THAN YOUR BASIC ANTI-VIRUS?

AVG Anti-Virus & Firewall 9.0 brings you all the protection of AVG's Anti-Virus 9.0, plus a brand-new, high-efficiency firewall that keeps hackers out of your PC. And your PC out of botnets and firmly under your control.

AVG IS SMART PROTECTION

AVG's new high-speed anti-virus/anti-spyware combo scanner is smarter than your average scanner. It keeps track of what's already been scanned and found clean. If those files haven't changed, they're not scanned again – if they haven't changed, they're not infected.

AVG'S SECRET WEAPON

AVG Anti-Virus & Firewall 9.0 also has a secret weapon other anti-virus products don't have. It has LinkScanner®. LinkScanner takes over where your anti-virus doesn't go – into the depths of web pages you haven't even visited yet.

LinkScanner gives you a vital extra layer of protection that you won't find in any other anti-virus software. Whenever you're on the web, the moment you go to click on a link, LinkScanner analyzes the page behind that link to tell you whether there's something nasty hiding there.

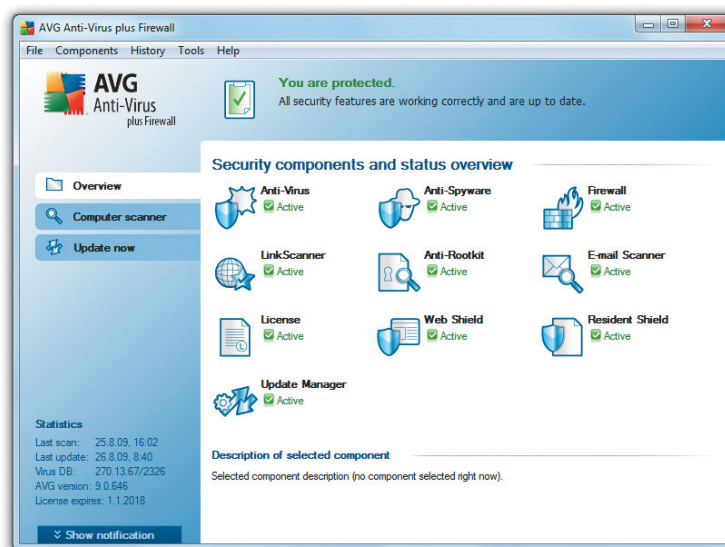

Most web threats these days are literally here today, gone tomorrow. So the only way to protect yourself is to use software that checks the page behind every link at the only time that matters – right before you click on it.

And for added peace of mind, you also get safety ratings for your Google, Yahoo! and Bing/MSN search results.

AVG Anti-Virus & Firewall 9.0 is simply smarter security that doesn't slow you down.

It doesn't waste your time. It just keeps you safe – online or off.

- ✓ **LinkScanner®** for safe surfing and searching
- ✓ **WebShield** for safe social networking, chatting and downloading
- ✓ **Enhanced firewall** to keep hackers out of your PC
- ✓ **High-speed anti-virus/anti-spyware** with auto updates
- ✓ **Anti-phishing** keeps you safe from cybercriminals

80 million people trust us to keep them safe online – and so can you.

Why AVG?

When you're surfing and searching the web, sharing photos and music with friends, and keeping up with your social networks, security's not the first thing on your mind. So AVG helps you to stay safe by protecting you from hidden dangers on the Internet.
