

# AVG FILE SERVER EDITION 9.0

## ESSENTIAL PROTECTION FOR YOUR FILE SERVER

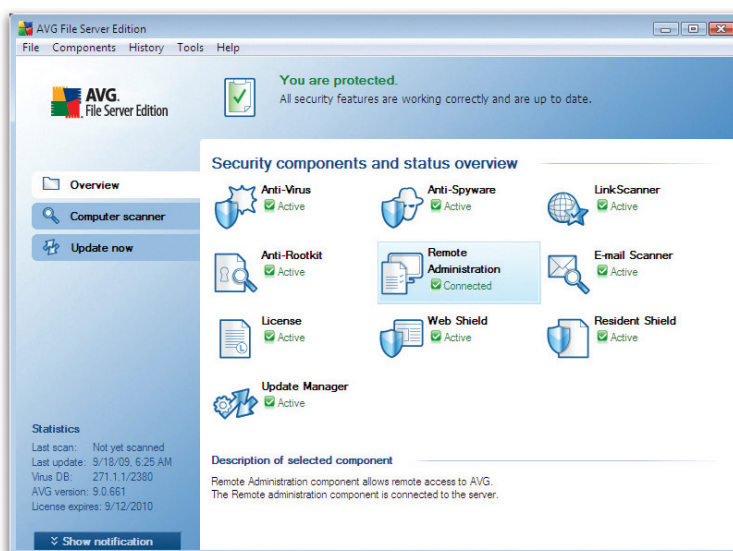

Award-winning anti-virus and anti-spyware protection for Windows file servers to prevent viruses and other threats from spreading across your network. If you already have virus protection on your workstations but don't have protection for the critical business data on your server, this is the solution for you. AVG File Server Edition 9.0 also includes key additional technology to protect your server against threats from unsafe websites.

- ✓ **NEW** high-performance virus scanner gives you great protection without getting in the way of business
- ✓ **LinkScanner**® ensures critical data on your server is safe from malicious websites
- ✓ **ENHANCED** protection against phishing attacks prevents damage from clicking on unsafe links
- ✓ **ENHANCED** remote administration ensures easy deployment and centralized management of security incidents
- ✓ **FREE** support and service around the clock and across the globe

**AVG File Server Edition 9.0 can be deployed in minutes. Central management and monitoring ensures that ongoing maintenance requires minimal resources:**

- ✓ Centralized configuration, reporting and updating
- ✓ One-stop license management
- ✓ Remote installation and repair
- ✓ Security policy enforcement
- ✓ Terminal server enabled

AVG File Server Edition 9.0 is priced according to the number of connections - the number of licenses is determined by the total number of connections to the server. One or two-year subscriptions are available.

80 million people trust us to keep them safe online – and so can you.
