

INTERNET SECURITY 9.0

COMPLETE PROTECTION FOR EVERYTHING YOU DO

WORRIED YOU DON'T HAVE ENOUGH PROTECTION WHEN YOU GO ONLINE?

With AVG Internet Security, you get a worry-free experience every time you go online. Multiple layers of protection mean you don't have to worry about identity theft, spam or viruses. It'll even stop you visiting harmful sites before you can click on them.

TWO VITAL EXTRA LAYERS OF PROTECTION YOU WON'T FIND IN ANY OTHER SECURITY SOFTWARE

LinkScanner® takes over where anti-virus can't go – into the depths of web pages you haven't even visited yet. Whenever you're on the web, the moment you go to click on a link, LinkScanner analyzes the page behind that link to tell you whether there's something nasty hiding there.

For added peace of mind, you also get safety ratings for your Google, Yahoo! and Bing/MSN search results.

Identity Protection makes sure your passwords, credit card information, bank account details, and other valuable data are safe from even the newest and most sophisticated threats. It's constantly on guard, watching to make sure no program on your PC is doing something it shouldn't.

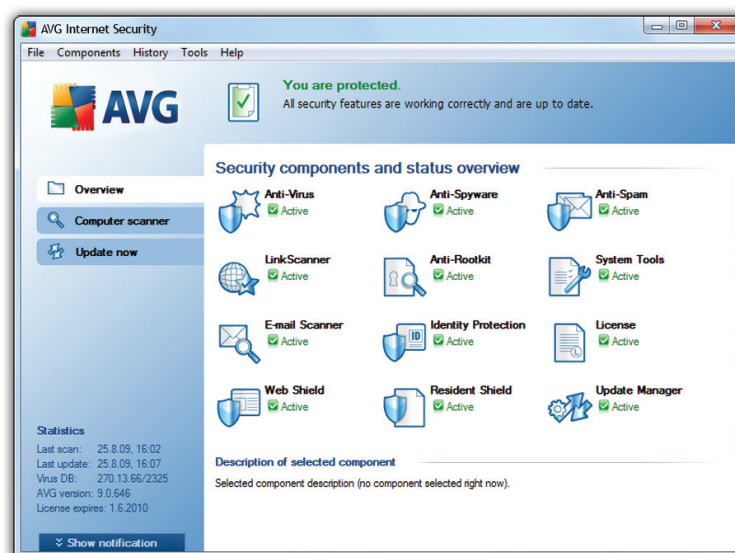

If it finds something misbehaving, it simply shuts it down. So your data is safe.

Think about it. Just one software package to protect you from every trickster, scam artist, cybercriminal, hacker, and spammer lurking out there – including brand-new threats that haven't been identified by other security software companies.

AVG Internet Security 9.0 gives you complete protection for everything you do on your computer – online or off.

It's faster, smarter security that won't slow you down.

- ✓ **Identity Protection** for safe banking and shopping
- ✓ **LinkScanner®** for safe surfing and searching
- ✓ **WebShield** for safe social networking, chatting and downloading
- ✓ **Anti-phishing and anti-spam** for a safe, uncluttered inbox
- ✓ **High-speed anti-virus/anti-spyware** with auto updates
- ✓ **Enhanced firewall** to keep hackers out of your PC

80 million people trust us to keep them safe online – and so can you.

Why AVG?

We know what's important to you when you're online – sharing photos and music, chatting, managing your finances, shopping, keeping in touch with friends and family. You don't want to be worrying about security. AVG takes the uncertainty out of going online, protecting you wherever you go and whatever you do.
